We've Come a Long Way

Now it's fair to say, as we found our way
Things fell down
I guess not everyone shares, your happiness when it's
Second time around

Still all through it, we fought it
For us to be standing here
We held on, we held out
Now the smoke has cleared

In all the times that we've had
Through good times and bad
We've come a long way
Here's to the nights that we cried,
And all the times that we tried,
We've come a long way.

And needless to say
They all had their way
And were heard out
But try as they might, we never lost sight
Of what we had found

Though things came off the rails,
It was raining on our parade.
We never lost sight and we found our way.

We found out the hard way, love can leave you alone.
Make sure, you wish for, all that you want.
